

# LUIS GUILLEN

**Email:** luigi@guiar.com.mx | **Phone:** +1 (817) 659-4871

**LinkedIn:** [LUIS-GUILLEN-ARC](#) | **GitHub:** [LU1Gi21](#)

## EDUCATION

### Bachelor of Science in Computer Science

The University of Oklahoma | 2021-2025

## TECHNICAL SKILLS

- **Languages:** Python (Advanced), C++ (Advanced), Java (Advanced), TypeScript (Intermediate), R (Advanced)
- **Frameworks & Libraries:** React, Next.js, Tailwind CSS, LangGraph, FastAPI
- **AI/ML:** Machine Learning, Agentic Frameworks, Data Analysis
- **Infrastructure:** Computer Security, Network Security
- **Methodologies:** Agile, SCRUM, Project Management

## PROFESSIONAL EXPERIENCE

### Chronologic | Lead Developer

*2024 - Present* - Architected and implemented a consumer-focused AI agent system that seamlessly integrates multiple applications - Developed unified interface management and intelligent task scheduling capabilities - Established technical architecture for cross-application AI communication protocols - **Technologies:** Python, AI/ML, API Integration, Agent Systems, Next.js, TypeScript -

### Code Generation & Review System | Lead Developer

*Hacklahoma 2025* - Designed and built an AI-powered code generation system with parallel execution capabilities - Implemented intelligent agent architecture for automated code quality improvement - Created system for real-time code analysis and optimization - **Technologies:** Python, React, LangGraph, FastAPI, TypeScript - [GITHUB REPOSITORY](#)

## CORE COMPETENCIES

- Advanced Problem-Solving & Algorithm Design
- Technical Leadership & Team Coordination
- Cross-functional Collaboration
- System Architecture & Integration
- User Experience Design

## AREAS OF EXPERTISE

- Artificial Intelligence & Machine Learning
- Intelligent Agent Systems & Automation
- Software Architecture
- API Development & Integration
